Who we are:

A minority owned, SBA 8(a) Certified Small Business, Ennoble First Inc. provides strategic technology and professional services to government agencies and commercial businesses . We specialize in mobilizing the right people, skills and technologies to help organizations innovate, modernize, and optimize their performance to achieve their business goals.

Ennoble First is committed to delivering requirement-centered excellence, creating innovative and scalable solutions, and providing quality and value for our clients.

Our 5P guiding principles set us apart from the competition!

People, Partners, Process, Performance, Progress

Ennoble First offers a strategic mix of business and technology expertise. This includes: Data Engineering - Statistical and Predictive analysis, recurring model assessments like Hadoop. IT Lifecycle Solutions - proven expertise in SDLC engineering, leveraging the latest technologies to achieve highly successful results. Systems Engineering - gathering and documentation for subsystems and integration requirements for end to end designs. Cloud Services - offering resources that span the Networking and Telecommunications sector.

- Our DOD and Intelligence Community team provides custom solutions tailored to meet their unique requirements. Ennoble First has provided professional services, solutions, and certified professionals for DISA, Air Force, Army, NGA, CIA, DHS, NRO, NCIS, and FBI.
- Our Health Solutions team is comprised of certified professionals with specialization on EMR/EHR applications, ITSM and back office support functions. Ennoble First has experience with CMS (VDC stand-up), HHS, DHA and Lahey Medical (EPIC implementation/support).
- Professional Services is the heartbeat of Ennoble First. The team excels at researching and identifying premium talent – those professionals with hard to find clearance suitability, while pursuing key business targets and creating strategic partnerships. Our Ennoble First Professional Services team seeks out new technologies and offers the necessary solutions to help our customers and partners manage their timelines to meet key business goals.
- We have strong partnerships with Check Point, AWS, MapR, Mark Logic, Dell EMC, Oracle and ServiceNow.
